

Listen, good friends, and you shall hear why some Cigarettes are so all-fired dear

SOME cigarettes are packed in pretty boxes that certainly don't grow on trees. Next, they're dolled up—and flavorings are sure getting expensive. And then, they're priced a bit high so they'll seem "exclusive." But read how Spur Cigarettes offer the highest possible quality at the lowest possible price:

If there are any finer tobaccos from the Orient and the good old U. S. A. than those selected for Spurs, they must be a secret that the world has never heard. And when we got these combined in Spur Cigarettes, what do you suppose was the result? Just the best taste and aroma that any cigarette could give, and Willie Doll-up or Freddie Flavoring hadn't a thing to do with it.

Spur is "class" all through—even to the smart "brown-and-silver" package, triple-wrapped, that keeps Spurs fresh and fragrant. Try out a package of Spurs. You'll say "made and priced for popularity."

## DRY LAW MENACED, KRAMER COMPLAINS

Prohibition Commissioner Declares He Is Hampered by Lack of Money.

"Dry" law enforcement is menaced by lack of men and money. Secretary of the Treasury Houston was so informed today by Prohibition Commissioner Kramer and Internal Revenue Commissioner Williams. They urged Secretary Houston to ask for larger funds, and authorization for enlarging the corps of prohibition agents, to prevent the spread of bootlegging, distilling and smuggling.

Latest reports to Commissioner Kramer show an alarming increase in the ranks of violators, who are defying the law, and succeed in eluding capture, because of the lack of strength in prohibition enforcement machinery. The fund of \$1,500,000 provided by Congress to enforce the Volstead act is rapidly dwindling and the staffs of rum raiders in various districts are reported to be much below their required strength.

Commissioner Kramer has informed his superiors that his problems are increasing, as a result of the boldness of violators. Records now show a diminished volume of whiskey coming out of bonded warehouses under permits, due to the restrictions recently put in force, but smuggling is gaining at such a rate as to cause Government to lose considerable money. This traffic is going on by wholesale across both the Canadian and Mexican borders, and through Atlantic ports from the Bahama Islands and Cuba. Illicit distilling also is increasing in the rural districts. The rural districts are pouring great quantities of "moonshine" into the large cities. Prohibition officials, aware of the situation, are powerless to cope with it, because of their depleted forces.

## LINGERIE PRICES MUST FALL, SAY U. S. BANKERS

Pluffy Things in Windows Due for Decline in Cost, Federal Reserve Board Declares.

Know why lingerie is so high? The Federal Reserve Board today said its version of it is a pending row between the undergarment manufacturers and jobbers.

Chief blame is put on the manufacturers who refuse to scale their prices down, and jobbers virtually certain that a price drop upon such articles is inevitable are simply holding off buying.

Board officials said, however, that the fancy prices with which practically all articles of dainty feminine apparel is tagged, will be lowered. Underwear manufacturers are overstocked, they said, and banks will not longer finance the holding back of such goods for unreasonable prices. Officials were very emphatic that sharp drops in the cost of raw silk and raw cotton will force a steady reduction in the prices of such goods to consumers.

## PERSECUTED BY ARMY, COURT SAYS OF PRISONER

BOSTON, Sept. 24.—Phillip Rome, wealthy Worcester business man, sentenced to one year at hard labor by an army tribunal for alleged draft dodging is free today by order of Judge Morton in Federal court. In his decision the court censured the military authorities for having been "peremptory and unjust" and that their insistence on prosecution after learning the facts was "far from creditable."

Judge Morton also criticized the local draft board at Worcester for failing to notify the district board that Rome had left the country for South America with the knowledge and consent of the War Department.
